

Request to Connect to Your Health App

If you have a health app on your smart device (phone or tablet), depending on which health app you are using, you may be able to connect to your Saratoga Hospital medical information and access your information on your smart device.

Please complete the following information for submission to Saratoga Hospital's Information Systems department (this service is available to current patients only). Or you can call our Healthcare Access Help Line at 518-886-7999.

Name:	
Phone Number:	
Email Address:	
Name of App:	

Your request will now be submitted to our Information Systems team. We will contact your health app developer to see if your app and our system are compatible.

It is important that you provide us with a valid email address. We will contact you via email to confirm your request, review any questions we may have, and provide you with updates regarding your submission. Please be patient while our team and the app developer work together. We will provide you with updates on the status of your request.

Please submit form to:

Saratoga Hospital Health Information Services 211 Church Street Saratoga Springs, NY 12866

Or send via secure fax to: 518-886-5646

Please call 518-886-7999 if you have any questions.
